

Elevating clinical workflows through connectivity

The Citizen Care Health Solution streamlines data management at the point of care.

The Citizen Care Health App and Portal lets providers spend less time on paperwork and more time with patients.

More than Middleware

Manage User Certifications. Keep track of provider training and proficiency with automatic device lock-out for expired certifications.

Schedule Patient Tests Manage patients, test orders, and scheduling right from an intuitive web portal.

Track your facility's POCT program with customizable reports.

Filter and export comprehensive data on patients, users, tests, devices, and QC.

Report on Device and Consumable Quality Control. Keep your facility audit-ready with reporting on device and reagent performance.

Manage Testing Inventory. Track your medical devices and consumables with quantities and expiration dates.

View and Share Test Results. See status updates on scheduled test orders and review results, with automatic flags for abnormal values.

Find out how the Citizen Care Health Solution can help optimize your point-of-care testing today!
